Re: Letter of Recommendation - Rowe Line Construction, Inc.

Windstream Communications used Rowe Line Construction, Inc. (Rowe) as our Sole Source Provider (SSP) for outside plant construction and splicing for the years 2010, 2011, and 2012 on a unit basis contract for the eastern and central Pennsylvania areas. In that capacity, Rowe did aerial, buried and underground construction work for Windstream, as well as, copper and fiber splicing.

Throughout the contract term, I experienced nothing but professionalism and quality workmanship from Rowe. We routinely had job status calls for each area, and Rowe always participated and provided valuable updates and input. Rowe was always quick to respond, especially for call-out situations, and hardly ever missed a customer due date that was within their control. In fact, if needed Clay as the principal owner of the company, would be involved in personally completing the work or seeing that it was done. Knowing that the jobs would get done is a huge comfort factor for any manager.

During that time period, Windstream had a large number of fiber to the tower sites in Rowe's area that needed to be constructed and spliced, and all of them were brought in on time. In addition, throughout the period Rowe was our SSP, we never had a billing issue, much less a dispute, which we couldn't resolve quickly and amicably for all parties.

Also, Rowe had relationships within the industry and would use other contractors as needed to manage the work load efficiently and effectively across the region. I definitely would recommend Rowe as a contractor to use as a SSP.

For reasons beyond my immediate control, Rowe was not selected as our SSP in 2013. Ultimately, it came down to bottom line pricing; however, throughout my experience with Rowe, their pricing was always very competitive, realistic, and fair to both parties.

Should you have any questions or like to talk to me about Rowe's performance, I can be reached at (610)-404-6239.

Thank you for the opportunity to comment.

Sincerely,

I am writing to recommend the services of Rowe Line Construction Inc. Rowe has been working for us for many years as our Single Source Provider. Their knowledge of Outside Plant has aided us through major reconstruction, daily work routines and storm damages over the years.

I feel confident in recommending Rowe Line Construction Inc. They are not only thorough, but also easy to work with, and always willing to take the time to discuss my concerns and respond to questions.

If you have any further questions, please feel free to contact me.

To Whom It May Concern:

I am happy to provide a reference for Rowe Line Construction, Inc. a company that I have worked with for more than 3 years. I have worked closely with Clay Rowe Vice President and find him to be a respectable and efficient manager.

The Rowe Line Construction group in Sunbury, PA has always been dependable, efficient and easy to work with even under tight deadlines. Their billing especially is always timely, complete and all documentation is easy to understand and process. I'm happy to recommend Rowe Line Construction, Inc. as a company I enjoy working with and find to be an important asset to our business success.

Sincerely,

Mary Ellen Buckley
